

Simplilearn FullStack Java Developer Phase 2 Project 1

<https://github.com/azamkhan11>

Core Libraries:

MariaDB

Hibernate

JSP/Servlet/HTML

Description:

Learner's Academy is a school that has an online management system. The system keeps track of its classes, subjects, students, and teachers. It has a back-office application with a single administrator login.

Sprint 1:

Setup Database and provide master List in Java EE for all entities - Classes

- Subjects
- Teacher
- Student

Sprint 2:

Implement the Assignments: - Student to class

- Subject to Teacher
- Subject to Class

Sprint 3:

Class Report

Improvements in Navigation Clean Up
